DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 9, 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Gorton. Note that Gorton shows a fork with curved outer tynes and a finger platforms.

Claim Rejections - 35 USC § 103

Claims 1-7, 9, 11-12, 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gagnon et al in view of Town et al. The rational from the last Office action is incorporated herein by reference.

Claims 10, 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gagnon et al and Town et al as applied to claim 1 above, and further in view of Cox. The rational from the last Office action is incorporated herein by reference.

Claims 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gagnon et al and Town et al as applied to claim 1 above, and further in view of Bouchakian. The rational of the last Office action is incorporated herein by reference.

Allowable Subject Matter

Claim 8 is allowed.

Conclusion

Applicant argues that the flat portions of the handle of Figs 4-6 of Gorton would not be held in the operator's fingers. It appears that when squeezing the lemon wedge one would hold the fork by the extended portions 54 and 55 since it would control the instrument more effectively than gripping it on the lower handle. As to the application of Gagnon applicant argues that his handle is not widened in the same manner as that of Gagnon. This may be true but such structure appears to be absent from the claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
